Information technology

A vibrant, modern interior space. A large yellow pendant light hangs from the ceiling. In the background, there is a blue door and a built-in blue shelf unit. A potted plant sits on a wooden surface. In the foreground, a red cylindrical table holds a red cup, and a colorful, abstract rug is visible.

INTRODUCTION

There are many designers wish to share their designs and ideas, with others to benefit from them.

You can:

- Discover new ideas
- Save what inspires you Shop based on your taste
- Find new creators Share what you love
- Explore billions of ideas to turn your dreams into reality.

On Picker, the possibilities are endless: Design your outdoor oasis. Hack your home organization. Create a style you love.

OBJECTIVES

what is Picker and how does it work?

Picker is a social network that allows users to visually share, and discover new interests by posting images to their own or others' boards and browsing what other users have post and like

Using a visual orientation, the social network is very much focused on the concept of a person's style, allowing you to share your tastes and interests with others and discovering those of like-minded people. .

METHODOLOGY

We use google drive (questionnaire) to interview people online to collect data and different view of points. It is easy to implement and free.

SCOPE

Picker is suitable for all the designers and everyone who is intrerested in this feild

RELATED WORKS

Picker is a platform that combines between concepts of Redecor, pinterest, and social media applications.
